Dear Policyholder:

Dear Policyholder:

Thank you for placing your workers compensation coverage with Berkshire Hathaway Homestate Companies (BHHC). We look forward to working with you to fulfill all your workers compensation needs.

Enclosed you will find documentation necessary for the processing and administration of a claim in the event of a workplace injury, as well as important information regarding workers compensation requirements for your state (i.e. posting notices, compliance laws, etc). Please utilize the documents included to collect valid information regarding the injured employee and incident, and send the documents in when reporting the claim or upon request. Any completed document should be sent directly to BHHC using mail, e-mail, or fax. The assigned claims professional will forward necessary documentation onto the appropriate state entity.

It is critical that you promptly report all new claims using one of the methods listed to the right.

Arizona state law recommends employers report every industrial injury or occupational disease claim to their workers compensation carrier as soon as possible or within five days of employer knowledge of injury.

State law also requires that employers authorize initial medical treatment within 24 hours of knowledge that an occupational injury or illness has been sustained or reported, regardless of the legitimacy of the claim. Failure to comply may result in the loss of "medical control" and a significant increase in the potential claim cost.

We will attempt to contact you and the injured worker within 24 hours of receiving the First Report of Injury. Your cooperation in allowing the injured employee to speak with one of our Claims Professionals is appreciated.

Should you have any questions regarding the contents of this kit, a claim, or claim reporting, please contact our Customer Care Center at (888) 495-8949. Questions regarding your insurance policy or coverage should be directed to your broker or agent. We thank you for choosing BHHC as your workers compensation carrier and look forward to providing you superior customer service and compassionate care for your injured workers.

WORK EXPOSURE TO BODILY FLUIDS

NOTICE TO EMPLOYEES

Re: Human Immunodeficiency Virus (HIV),
Acquired Immune Deficiency Syndrome (AIDS) & Hepatitis C

Employees are notified that a claim may be made for a condition, infection, disease, or disability involving or related to the Human Immunodeficiency Virus (HIV), Acquired Immune Deficiency Syndrome (AIDS), or Hepatitis C within the provisions of the Arizona Workers' Compensation Law, and the rules of The Industrial Commission of Arizona. Such a claim shall include the occurrence of a significant exposure at work, which generally means contact of an employee's ruptured or broken skin or mucous membrane with a person's blood, semen, vaginal fluid, surgical fluid(s) or any other fluid(s) containing blood. **AN EMPLOYEE MUST CONSULT A PHYSICIAN TO SUPPORT A CLAIM.** Claims cannot arise from sexual activity or illegal drug use.

Certain classes of employees may more easily establish a claim related to HIV, AIDS, or Hepatitis C if they meet the following requirements:

1. The employee's regular course of employment involves handling or exposure to blood, semen, vaginal fluid, surgical fluid(s) or any other fluid(s) containing blood. Included in this category are health care providers, forensic laboratory workers, fire fighters, law enforcement officers, emergency medical technicians, paramedics and correctional officers.

2. **NO LATER THAN TEN (10) CALENDAR DAYS** after a possible significant exposure which arises out of and in the course of employment, the employee reports in writing to the employer the details of the exposure as provided by Commission rules. Reporting forms are available at the office of this employer or from the Industrial Commission of Arizona, 800 W. Washington, Phoenix, Arizona 85007, (602) 542-4661 or 2675 E. Broadway, Tucson, Arizona 85716, (520) 628-5181. If an employee chooses not to complete the reporting form, that employee may be at risk of losing a prima facie claim.

3. **NO LATER THAN TEN (10) CALENDAR DAYS** after the possible significant exposure the employee has blood drawn, and **NO LATER THAN THIRTY (30) CALENDAR DAYS** the blood is tested for **HIV OR HEPATITIS C** by antibody testing and the test results are negative.

4. **NO LATER THAN EIGHTEEN (18) MONTHS** after the date of the possible significant exposure at work, the employee is retested and the results of the test are HIV positive or the employee has been diagnosed as positive for the presence of HIV, or **NO LATER THAN SEVEN (7) MONTHS** after the date of the possible significant exposure at work, the employee is retested and the results of the test are positive for the presence of Hepatitis C or the employee has been diagnosed as positive for the presence of Hepatitis C.

AVISO A LOS EMPLEADOS

Re: El Virus de la Inmunodeficiencia Humana (VIH),
Síndrome de la Inmunodeficiencia Adquirida (SIDA) y Hepatitis C

Se les notifica a los empleados que se puede hacer una reclamación por una condición, infección, enfermedad o incapacidad relacionada con o derivada del Virus de Inmunodeficiencia Humana (VIH), Síndrome de Inmunodeficiencia Adquirida (SIDA), o Hepatitis C bajo lo provisto por la Ley de Compensación para los Trabajadores de Arizona y las reglas de La Comisión Industrial de Arizona. Tal reclamación debe incluir el suceso de una exposición importante en el trabajo, la que por lo general significa contacto de alguna ruptura de la piel o mucosa del empleado con la sangre, semen, fluido vaginal, fluido(s) quirúrgico(s) o cualquier otro fluido de una persona que contenga sangre. **EL EMPLEADO DEBE CONSULTAR A UN MEDICO PARA CONFIRMAR SU RECLAMACION.** Las reclamaciones no pueden resultar de actividad sexual o uso ilícito de drogas.

Ciertas clases de empleados pueden establecer más fácilmente una reclamación relacionada con el VIH, SIDA O Hepatitis C si reúnen los requisitos siguientes:

1. El curso regular del empleo del empleado requiere el manejo de o la exposición a sangre, semen, fluido vaginal, fluido(s) quirúrgico(s) o cualquier otro fluido que contenga sangre. Incluidos en esta categoría son los proveedores de cuidados de la salud, trabajadores de laboratorios forenses, bomberos, agentes policiales, técnicos médicos de emergencia, paramédicos y agentes correccionales.

2. **NO MAS DE DIEZ (10) DIAS DE CALENDARIO** después de una posible exposición importante que resulta de y en el curso de su trabajo, el empleado reporta a su patrón por escrito los detalles de la exposición como lo proveen las reglas de la Comisión. Las formas de reporte están disponibles en la oficina de este patrón o de la Comisión Industrial de Arizona, 800 W. Washington, Phoenix, Arizona 85007, (602) 542-4661 o 2675 E. Broadway, Tucson, Arizona 85716, (520) 628-5181. Si un empleado elige no llenar la forma de reporte, ese empleado corre el riesgo de perder una reclamación de prima facie.

3. **NO MAS DE DIEZ (10) DIAS DE CALENDARIO** después de una posible exposición importante el empleado va a que le saquen sangre, y **NO MAS DE TREINTA (30) DIAS DE CALENDARIO** la sangre es analizada para **VIH O HEPATITIS C** por medio de análisis de anticuerpos y el análisis resulta negativo.

4. **NO MAS DE DIECIOCHO (18) MESES** después de la fecha de la posible exposición importante en el trabajo, el empleado es examinado nuevamente y los resultados del análisis son positivos por VIH o el empleado ha sido diagnosticado como positivo por la presencia de VIH, o **NO MAS DE SIETE (7) MESES** después de la fecha de la posible exposición importante en el trabajo, el empleado es examinado nuevamente y los resultados del análisis son positivos por la presencia de Hepatitis C o el empleado ha sido diagnosticado como positivo por la presencia de Hepatitis C.

WORK EXPOSURE TO METHICILLIN-RESISTANT *STAPHYLOCOCCUS AUREUS* (MRSA), SPINAL MENINGITIS, OR TUBERCULOSIS (TB)

Notice to Employees

Employees are notified that a claim may be made for a condition, infection, disease or disability involving or related to MRSA, spinal meningitis, or TB within the provisions of the Arizona Workers' Compensation Law. (A.R.S. § 23-1043.04) Such a claim shall include the occurrence of a significant exposure at work, which is defined to mean an exposure in the course of employment to aerosolized MRSA, spinal meningitis or TB bacteria. Significant exposure also includes exposure in the course of employment to MRSA through bodily fluids or skin.

Certain classes of employees (as defined below) may more easily establish a claim related to MRSA, spinal meningitis or TB by meeting the following requirements:

1. The employee's regular course of employment involves handling or exposure to MRSA, spinal meningitis or TB. For purposes of establishing a claim under this section, "employee" is limited to firefighters, law enforcement officers, correction officers, probation officers, emergency medical technicians and paramedics who are not employed by a health care institution;
2. No later than thirty (30) calendar days after a possible significant exposure, the employee reports in writing to the employer the details of the exposure;
3. A diagnosis is made within the following time-frames:
 - a. For a claim involving MRSA, the employee must be diagnosed with MRSA within fifteen (15) days after the employee reports pursuant to Item No. 2 above;
 - b. For a claim involving spinal meningitis, the employee must be diagnosed with spinal meningitis within two (2) to eighteen (18) days of the possible significant exposure; and
 - c. For a claim involving TB, the employee is diagnosed with TB within twelve (12) weeks of the possible significant exposure.

Expenses for post-exposure evaluation and follow-up, including reasonably required prophylactic treatment for MRSA, spinal meningitis, and TB is considered a medical benefit under the Arizona Workers' Compensation Act for any significant exposure that arises out of and in the course of employment if the employee files a claim for the significant exposure or the employee reports in writing the details of the exposure. Providing post-exposure evaluation and follow-up, including prophylactic treatment, does not, however, constitute acceptance of a claim for a condition, infection, disease or disability involving or related to a significant exposure.

Employers must post this notice in a conspicuous place next to the Workers' Compensation Notice to Employees.

SIGNIFICANT EXPOSURE UNDER THE ARIZONA WORKERS' COMPENSATION ACT

In 2011, the Arizona Legislature amended the reporting requirements for a possible significant exposure to Methicillin-Resistant *Staphylococcus Aureus* (MRSA), which are found in Arizona Revised Statutes section 23-1043.04(B). Effective July 20, 2011, employees must report a possible significant exposure to MRSA that occurs at work to their employers within thirty calendar days after the possible significant exposure. Employees must also be diagnosed with MRSA within fifteen days after the employee reports the possible significant exposure to their employer(s). Employees should use the *updated form* to report significant exposure. Employers must display the updated *Notice to Employees* (poster) titled "Work Exposure to Methicillin-Resistant *Staphylococcus Aureus*, Spinal Meningitis or Tuberculosis (TB)." Reporting forms and posters, including the exposure reporting form and the Notice to Employees, are available from the Industrial Commission of Arizona's website at <http://www.azica.gov>.

What is a Significant Exposure Under the Arizona Workers' Compensation Act?

A report of significant work exposure to blood, bodily fluids, or other potentially infectious materials may be made by completing a form that reports this exposure. This form may be obtained from your employer or on the Industrial Commission of Arizona website at <http://www.azica.gov>. But, what is a "significant exposure"? In some instances, such as an exposure to bloodborne pathogens, you may not know if the blood, bodily fluids or other material to which you are exposed is infectious. In other instances, such as an exposure to Tuberculosis, MRSA, or Meningitis, you may know if the exposure is "significant" based on the symptoms of the person to whom you are exposed. Understanding the pathogens involved and how they are spread will help you answer the question, but if you have any concern as whether you should report the exposure, then you should "play it safe." Talk to your doctor, talk to your HR Department, or simply use this form to report what you believe to be a significant exposure. For more information regarding the requirements for filing a workers' compensation claim for a significant work exposure, and the presumptions that are available to certain classes of employees, please read the posters that are required to be posted at your workplace that contain this information. This information is also available on the Industrial Commission of Arizona website at <http://www.azica.gov>.

Bloodborne Pathogens

Bloodborne pathogens ("BBP") are disease causing organisms such as human immunodeficiency virus ("HIV"), hepatitis B, or hepatitis C that may be present in human blood or bodily fluids that are considered "other potentially infectious material." "Human Blood" includes human blood components and products made from human blood. "Other potentially infectious material" ("OPIM") includes semen, vaginal secretions, cerebrospinal fluid, synovial fluid, pleural fluid, pericardial fluid, peritoneal fluid, amniotic fluid, saliva in dental procedures, and any bodily fluid that is visibly contaminated with blood. Unless visibly contaminated with blood, these pathogens

are not transferred through tears, saliva (except in dental procedures), or perspiration. An easier way to think about this is to remember that OPIM are bodily fluids that are intended to always remain inside the body, sexual fluids, and any human tissue that is intended to be covered by skin. A significant exposure to BBP may occur when you come into contact with blood or OPIM through a break or rupture in your skin (e.g., needlestick injury or you cut yourself with a sharp instrument contaminated with blood), or your mucous membranes (e.g. blood or OPIM gets in your eyes, nose, mouth, or you engage in sexual activity with an infected person). The CDC indicates that a human bite that breaks the skin should also be considered a significant exposure. Additional information on HIV and Hepatitis may be found at www.cdc.gov.

Tuberculosis

Tuberculosis (TB) is a contagious disease that spreads through the air. Only people who are sick with active TB disease in their lungs are infectious. When infectious people cough, sneeze, talk or sing, they propel TB germs, known as droplet nuclei, into the air. These germs can stay in the air for several hours, depending on the environment. While not normally transmitted within minutes or hours of sharing the same “airspace,” a person needs only to inhale a small number of the TB germs to be infected. You do not get TB by just touching the clothes or shaking the hands of someone who is infected. Tuberculosis is spread (transmitted) primarily from person to person by breathing infected air during close contact. A person infected with active TB may show general symptoms of unexplained weight loss, loss of appetite, night sweats, fever, fatigue, and chills. Other symptoms of TB of the lungs include coughing for 3 weeks or longer, coughing up blood, and chest pain. Additional information on TB can be found at www.cdc.gov.

MRSA

Methicillin-Resistant Staphylococcus Aureus, also known as MRSA, is a potentially dangerous type of staph bacteria that has become resistant to one family of common antibiotics. MRSA is a contact risk. You can get MRSA through direct contact with an infected person, sharing personal items (such as towels or razors that have touched infected skin) or touching shared items (clothing, door knobs, workout benches, etc.). Most staph skin infections, including MRSA, appear as a bump or infected area on the skin that may be red, swollen, painful, warm to the touch, full of pus or other drainage, and accompanied by a fever. Many people describe it as looking like a spider bite. Additional information on MRSA can be found at www.cdc.gov.

Meningitis

Meningitis is a disease caused by the inflammation of the protective membranes covering the brain and spinal cord known as the meninges. The inflammation is usually caused by an infection of the fluid surrounding the brain and spinal cord. Meningitis is also referred to as spinal meningitis. Meningitis may develop in response to a number of causes, but it is usually caused by bacteria or viruses. Bacterial meningitis is spread from person to person through the exchange of respiratory and throat secretions, normally occurring through coughing, kissing, and sneezing. It is not spread through casual contact or by simply breathing the air where a person

with meningitis has been. It is considered a “heavy droplet” contact risk, similar to a cold, but not nearly as contagious as the cold. Viral meningitis is also spread from person to person through respiratory secretions (saliva, sputum, or nasal mucus) of an infected person. It can also be spread from person to person through fecal contamination (which can occur when changing a diaper or using the toilet and not properly washing hands afterwards). An adult infected with meningitis may have a high fever, severe headache, stiff neck, sensitivity to bright light, sleepiness or trouble waking up, nausea, vomiting, or lack of appetite. Bacterial meningitis can be more severe and immediate care can be important. Additional information on meningitis can be found at www.cdc.gov.

SUBMITTER EMAIL ADDRESS

NOTE TO EMPLOYER:

1. Submit one copy to the Industrial Commission within 10 days.
2. Submit one copy to your insurance carrier within 10 days.
3. Keep one copy, for not less than five (5) years, as your supplementary record of injuries required by the Federal Occupational Safety and Health Act of 1970.

* The mandatory requirement that the social security number be included in forms filed with the Claims Division or Special Fund Division of the Industrial Commission of Arizona is permitted by Section 7(a)(2)(B) of the Federal Privacy Act of 1974, because the Commission's forms, prescribed under the Commission's Rules in existence prior to January 1, 1975, required disclosure of the social security number. The number is used as a means of identifying all the various records in the Claims Division or Special Fund pertaining to an individual. The use of social security numbers is made necessary because of the large number of persons who have similar names and birth dates, and whose identities can only be distinguished by the social security number.

\$1000 REWARD

For information leading to the arrest and conviction of any co-worker, health care professional, or the attorney representing a fraudulent workers compensation claim to Berkshire Hathaway Homestate Companies (BHHC)*.

In most states, it is a felony to make or cause to be made a knowingly false or fraudulent material statement in order to obtain workers compensation benefits. BHHC believes that any party engaging in such fraud should be prosecuted to the fullest extent of the law, including jail sentences.

Please do your part to help! Putting criminals out of operation benefits all of us, including keeping your employer's premium rates reasonable.

Call our toll-free fraud hotline immediately
if you have information on a fraudulent claim.

1 (800) 300-JAIL

*Maximum reward of \$1,000 per conviction. In the event that more than one individual submits information regarding the same fraudulent claim, BHHC will equally divide the reward among those providing information used in obtaining the conviction. BHHC reserves the right to determine what information, if any, will be provided to the appropriate law enforcement agency. Criminal prosecutions are the sole responsibility of the authorities and may or may not be pursued at their discretion. Any issues regarding the interpretation of this policy shall be resolved by BHHC at their sole discretion. Program subject to change or termination without prior notice.

\$1000 RECOMPENSA

Información que lleva al arresto y a la condena de cualquier compañero de trabajo, profesional de cuidado medico, o abogado que represente un reclamo fraudulento en contra de Berkshire Hathaway Homestate Companies*.

En la mayoría de los estados es un delito grave hacer que haga una declaración de material fraudulento para obtener beneficios de Compensación al Trabajador. Berkshire Hathaway Homestate Companies cree que cualquier persona que se involucre en tal fraude debe ser procesado con todo el rigor de la ley, incluyendo SER SENTENCIADO A LA CARCEL.

Ayúdenos de su parte. El poner a estos delincuentes fuera de operaciones nos beneficia a todos, incluso esto ayuda a mantener los réditos bajos de la aseguranza de su empleador.

Si usted tiene información sobre un reclamo fraudulento por favor llame de inmediato a nuestra LINEA GRATUITA DE FRAUDE.

1 (800) 300-JAIL

*La recompensa máxima es de \$1,000 por convicción. En caso de que más de una persona presente informaciones sobre la misma demanda fraudulenta. BerkshireHathaway dividirá la recompensa por partes iguales entre aquellas personas que aportaron informaciones para obtener la convicción. Berkshire Hathaway se reserva el derecho de determinar qué información presentará a la agencia judicial correspondiente. El proceso de crímenes es la responsabilidad exclusiva de las autoridades, que pueden decidir si el proceso debe entablarse or no. Cualquier disputa que pudiera surgir en la interpretación de esta oferta será resuelta por la propia Compañía de Seguros Berkshire Hathaway.
